Dental Hygienist

Lifestyle and Compensation Guide

What will YOUR successful dental hygiene career look like?

You have a huge decision ahead of you. We get it, we've been there ourselves. We know you want to make a positive impact on your industry and your patients while retaining a healthy work/life balance. In this guide you'll learn more about some of your career options, their lifestyle factors and compensation so you can find the right fit for YOU.

Lifestyle

For hygienists today, it may seem like there are only two career paths: stagnation in private practice, or partner with Corporate Dental and wave goodbye to your individuality and autonomy. We have a better solution at Community Dental Partners.

Small Practice

Private practice dentistry has dominated practice structure for many years, but there are sacrifices.

Pro

+ Freedom to make your own decisions.

Cons

- Less opportunity for bonuses and growth.
- Lack of stability with a smaller practice.

Corporate Dental

Corporate dentistry promises stability, but it comes at a great cost to you.

Pro

+ Less risk than working in private practice.

Cons

- Quotas set by corporate lead to a loss of autonomy.
- Lack of transparency and patient-centric care.

Community Dental Partners

We offer support for dental hygienists who want something more than the conventional path. We'll help you serve your community while providing you with the freedom to work and reach your goals.

Pros

- + Focus on your work as a hygienist and improve your clinical skills.
- + Build lasting relationships in your community.
- + Serve as a leader in oral health instruction and education to patients.
- + No daily quotas - you only provide treatments patients need.

The CDP Clinical Constitution

Patient-Centered

- Comprehensive Care
- Same Day Treatment
- Convenient Access

Personal Development

- Expanded Clinical Capability
- Certification Opp.
- Patient Empathy

Compensation

There's more to life than dental hygiene and money, but serving your community, growing your skills and making a difference are only possible when partnered with financial success. Check out our compensation estimation tools below and discover your earning potential.

Small Practice

Private practice too often pairs limited opportunities and no potential for bonuses with extremely limited benefit packages.

Corporate Dental

Corporate dental puts too much focus on “bottom line numbers” and hitting quotas, which tends to make you feel like just another employee and undermines your autonomy and expertise.

Doctor Led. Team Supported.™

What's YOUR version of success?

Whatever your ideal career path looks like, we're here to invest in you so you're every bit as supported as your patients.

As you embark on this next stage of your career, know that we're right here beside you with the support, resources and relationships you need for every step of the journey, because nothing makes us happier than seeing you achieve your version of success

A successful dental hygiene career, financial success, and a healthy lifestyle: it all starts with community.

Join CDP where it's more than just dentistry; it's about relationships.
